

Santa Rosa County  
Future Transportation Map Series  
Map 4-4 - Not Cost Feasible w/Existing Revenue Sources

Santa Rosa County is undertaking a PD&E study to determine which corridor, CR197 or CR197A, would result in the highest benefit cost ratio if widened. CR197A is experiencing concurrency pressures, but CR197 would serve as a parallel facility, have lower right-of-way costs and provide a more direct connection to County services for north end residents.

Legend

- Major Rivers
- Bicycle Trail
- Airfields
- Road Segment Number
- Increase to 4 Lanes
- Increase to 6 Lanes
- New 2 Lane
- New 4 Lane
- Express Route
- Major Trip Generator
- Evacuation Route
- Limited Access Connection to I 65.
- MPO Project.
